

Parking for Exhibitors

The parking lots are not owned by EXPONOR. They are operated by an external company.

From March 27 to 29, during the fair, exhibitors have access to a free parking lot in front of EXPONOR. (see last image of the document).

In the indoor parking lots, exhibitors will be charged a maximum daily rate of **€3.50**, to be paid upon exit at the machines located inside the pavilions.

During the event's set-up and dismantling periods, exhibitors will have **free access** to the car park as long as they have the respective **Access Voucher**, which will be sent by the organization (EXPOSALÃO) in advance to your email address.

Each Voucher/QR Code indicates assembly or dismantling, and the date/period of validity, and can be used without limit on entries and exits (or vice versa) as long as the registrations are made alternately; **there can never be 2 consecutive entries or 2 consecutive exits.**

To enter or exit the parking lot, simply scan the QR Code (printed or on your cell phone) at the respective readers available at the entrance/exit terminals, as shown in the images below. The readers are marked in the photos with a **red rectangle**.

For the duration of the event, parking cards are paper (with a barcode) and refer to "Exhibitor." They are valid only during the event (confirm the date), and the registration procedure at the machines is the same as described above for vouchers/QR codes. Whether during the event or during set-up and dismantling, it does not matter whether the first registration is for entry or exit. You can enter with the QR code, or, for example, take the parking card at the entrance and exit with the QR code or the card,

always using the same QR code or card to enter and/or exit, as described above.

As an example, this is the QR Code card that will be given to you.

ENTRY:

Scan the QR code in the area marked with a red square.

EXIT:

Bring the QR code close to the area marked with a red square.

Tarifas em frações de 15 minutos Tariffs for periods of 15 minutes	
1ª fração / 1st period	0,30 €
