

Rules for Own Stands Height

Dear exhibitors,

Please note that the maximum height for own stands is 2.50m.

However, if you wish to exceed this height, you must submit a request for our approval.

If we approve it, please note that the backs of the stand facing neighboring stands must be finished at 2.50m and without any advertising facing them.

PLEASE NOTE: All own stands are required to send us the stand design for approval, in accordance with EXPONOR rules.
