

Height Rules for Own Stands

Dear exhibitors,

Please be advised that the maximum height of our stands is 2.50m.

However, if you would like to make them higher, please submit this request for our approval.

If we approve, please note that the back of the stand, which faces the neighboring stands, must be finished from 2.50m and without any advertising facing them.

NOTE: All own stands are obliged to send us their stand project for approval, in accordance with EXPONOR rules.
